Exempelvis ska ytskikt, som bordsskivor, textil och stoppning kunna tas isär, avlägsnas och ersättas med hjälp av vanligt förekommande manuella verktyg, ej specialverktyg. Enklare reparationer och utbytesarbeten ska kunna utföras av en lekman. Om det krävs fackmanakunskap för mer avancerade arbeten ska det framgå av anvisningarna som leverantören ska kunna ge vid begäran. Anvisningarna ska innehålla en sprängskiss, steg för steg beskrivning inklusive vilka verktyg som krävs samt hur möbelns ingående delar bör källsorteras.

An EPD (Environmental Product Declaration) is a document that summarises a product's environmental performance. An EPD is based on a life cycle assessment (LCA). The requirements for how an EPD is to be made are specified in the ISO 14025 standard. These standardised methods ensure that environmental information can be compared product by product, regardless of manufacturer, region or country. Our EPDs are third-party verified. The GREENGUARD Gold Certification Standard gives assurance that products designed for use in office environments and other indoor spaces meet strict chemical emissions limits, which contribute to the creation of healthier interiors.

[1)] Included HÅG TiltDown™ armrests

* Based on post consumer recycled PP - Black or Brown. (HÅG Tion and HÅG Celi plastic versions use post consumer recycled PP for seat & back in all colours). EPD for HÅG SoFi is for black plastic version only.

** Valid for HÅG Tion model 2100, 2140 and 2160
