Färgmarkeringar och/eller symboler för hållbara alternativ i prislistan:

Mörkgrön markering eller symbol

Miljömärkt produkt – Möbler där hela den sammansatta varan har en typ 1 miljömärkning enligt ISO 14024 med Svanen, Möbelfakta, EU Ecolabel eller annan likvärdig märkning.

Ljusgrön markering eller symbol

Hållbarhetsmärkt produkt eller beståndsdel – Möbler där hela eller delar av den sammansatta varan är hållbarhetsmärkt, exempelvis med FSC, EU Ecolabel eller OEKO- TEX®. Leverantören ska kunna ge mer detaljerad information om vilka delar eller variationer som är hållbarhetsmäkta vid begäran.

Orange markering eller symbol

Klimatberäknad produkt – Produkt med dokumenterad miljövarudeklaration (EPD) enligt ISO 14025.

Lila markering eller symbol

Produkt med återvunnet eller förnybart material (enligt definitionerna i ISO 14021). Leverantören ska kunna ge information om andel (%) återvunnet och/eller förnybart (biobaserat) vid begäran. Märkning av återvinningsbart material utgår.

Blå markering eller symbol

Demonterbar produkt – Produkt som är demonterbar till olika komponenter och beståndsdelar som i första hand möjliggör återbruk och i andra hand materialåtervinning när produkten nått sin fulla livslängd. Produkten ska vara designad för renovering, det vill säga att det ska vara enkelt att reparera och byta ut moduler, komponenter och beståndsdelar som slits över tid. Exempelvis ska ytskikt, som bordsskivor, textil och stoppning kunna tas isär, avlägsnas och ersättas med hjälp av vanligt förekommande manuella verktyg, ej specialverktyg. Enklare reparationer och utbytesarbeten ska kunna utföras av en lekman. Om det krävs fackmanakunskap för mer avancerade arbeten ska det framgå av anvisningarna som leverantören ska kunna ge vid begäran. Anvisningarna ska innehålla en sprängskiss, steg för steg beskrivning inklusive vilka verktyg som krävs samt hur möbelns ingående delar bör källsorteras.

Eames Plastic Chairs RE

Charles & Ray Eames, 1950

vitra.

PACC

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery, both made of recyclable polyurethane foam ‚V-Foam'. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.
Note: due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.
Options: the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

Base: five-star base in polished die-cast aluminium with double castors in basic dark. (PACC = Pivot Armchair Cast Base on Castors)

Eames Fiberglass Chairs

Charles & Ray Eames, 1950

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, glass-fibre reinforced polyester (fibreglass), whose characteristic irregular surface may exhibit a varying pattern of fibres or deviations in colour as well as small specks of pigmentation. Just like the earliest models, today's fibreglass shells are also slightly transparent in some colours. Optionally available with a moulded foam seat cushion (screwed to the seat shell); cushion can be replaced by the Vitra service team.
Base: tubular steel, chrome-plated or powder-coated, non-stackable. Height of seat front edge: 820 mm; ideal for use at counters and tables 110 to 115 cm in height (without seat cushion). The powder-coated version may show signs of abrasion on the footrest due to the anti-slip coating.

DAR

DAW

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery, both made of recyclable polyurethane foam ‚V-Foam'. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.
Note: due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.
Options: the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

Eames Plastic Armchair RE DAR

Base: wire base with cross struts, chrome-plated or powder-coated finish. (DAR = Dining Height Armchair Rod Base)

Outdoor use: unupholstered version with powder-coated base suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Eames Plastic Armchair RE DAW

Base: wooden base in various shades of maple or honey-toned ash, stained and lacquered finish. Steel rod cross struts in basic dark. (DAW = Dining Height Armchair Wood Base)
Origin of wood: ash (Fraxinus excelsior) and maple (Acer platanoides) from Western Europe and/or Poland.

Eames Plastic Chairs RE

Charles & Ray Eames, 1950

DAL

DAX

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery, both made of recyclable polyurethane foam ‚V-Foam'. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.
Note: due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.
Options: the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

Eames Plastic Armchair DAL

Base: La Fonda base in die-cast aluminium, polished or powder-coated finish. (DAL = Dining Height Armchair La Fonda Base)

Outdoor use: unupholstered version with powder-coated base suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Eames Plastic Armchair DAX

Base: four-legged tubular steel base, chrome-plated or powder-coated. (DAX = Dining Height Armchair X-Base)

Outdoor use: unupholstered version with powder-coated base suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Eames Plastic Chairs RE

Charles & Ray Eames, 1950

Eames Plastic Stool High

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery, both made of recyclable polyurethane foam ‚V-Foam'. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.
Note: due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.
Options: the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.
Base: tubular steel, chrome-plated or powder-coated, non-stackable. Height of seat front edge: 820 mm; ideal for use at counters and tables 110 to 115 cm in height (without seat cushion). The powder-coated version may show signs of abrasion on the footrest due to the anti-slip coating.

Outdoor use: unupholstered version with powder-coated base suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

HAL RE Armchair Wood

HAL RE Armchair Tube Stackable

HAL RE Armchair Studio

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

HAL RE Armchair Wood

Seat shell: dyed-through, recycled polypropylene, with optional seat cushion (screwed to the seat shell) made of recyclable polyurethane foam ‚V-Foam'.

Base: non-stackable wooden base in natural or dark oak. Connecting element between shell and base in die-cast aluminium, powder-coated in dim grey.

Origin of wood: oak (Quercus robur) from Western Europe and/or Poland.

HAL RE Armchair Tube Stackable

Seat shell: dyed-through, recycled polypropylene, with optional seat cushion (screwed to the seat shell) made of recyclable polyurethane foam ‚V-Foam'.

Base: stackable four-legged tubular steel base, chrome-plated finish or powder-coated in basic dark. Up to 6 chairs can be stacked on the floor or on a stacking trolley. Chairs with seat cushions should not be stacked, since stacking could damage the upholstery.

Note: as stacking can cause scratches, we recommend the chrome version for this purpose.

Outdoor applications: unupholstered version with powder-coated base suitable for use in outdoor conditions on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

HAL RE Armchair Studio

Seat shell: dyed-through, recycled polypropylene, with optional seat cushion (screwed to the seat shell) made of recyclable polyurethane foam ‚V-Foam'.

Base: five-star base in die-cast aluminium powder-coated in basic dark. Swivel mechanism with shock-absorbing seat suspension, height-adjustable.

Delivery: includes castor protection (orange or transparent), which must be removed before first use.

Glides: colour matched to the small attachment parts for the seat shell, choice of white (except HAL Wood and HAL Ply Wood) or basic dark. All bases fitted with glides for carpet; felt glides optionally available for hard floors.

HAL RE Sledge

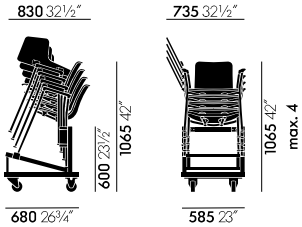

HAL RE Tube Stackable

HAL Ply Tube Stackable stacking trolley

HAL RE Tube Armrest

HAL RE Tube Writing Tablet

HAL Stacking dolly

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

HAL Stacking Trolley

HAL Stacking Trolley is suitable for use with all stackable HAL models, with the exception of HAL Soft Tube stackable.

HAL seat cover

The fabric covers for the seat shells of HAL and HAL Ply provide enhanced comfort. They are available in various colours and can be easily attached and removed.

HAL seat cover: 100% polyester/polyurethane; two reverse flaps fit over top of backrest and front of seat. Available in Plano fabric in predefined colours (see Price List supplement for upholstery materials). Additional colours in the Plano collection can be selected for orders of 6 or more seat covers.

HAL row connector

The HAL row connector is a linking element in two sizes: 100 mm for a smaller and 180 mm for a larger distance between the chairs. The number clips of the linking elements for the .03 also match the new HAL linking element.
For the following HAL chairs, the linking elements can be used in both sizes:
- HAL RE Tube Stackable
- HAL Ply Tube Stackable
- HAL RE Tube Armrest

For the following HAL chairs, only the linking element of 180 mm can be used:
- HAL RE Armchair Tube Stackable
- HAL RE Tube Writing Tablet

ID Visitor Mesh, stackable

ID Visitor Air/Mesh with writing tablet

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

ID Visitor Air

Backrest: perforated plastic backrest in basic dark or soft grey, unupholstered. Armrests made of polypropylene in basic dark or dim grey.
Seat: seat upholstery made of recyclable polyurethane foam 'V-Foam'. Seat cover in fabric or leather.
Base: tubular steel cantilever base, in chrome or powder-coated in basic dark or soft grey. Can be stacked (max. 4 chairs).
Note: as stacking can cause scratches, we recommend the chrome version for this purpose. In the stackable version, the seat cover is in basic dark (with armrests in basic dark) or soft grey (with armrests in dim grey).
Optional accessory: a multipurpose folding desk tablet in black plastic is available for the version in chrome.

ID Visitor Mesh

Backrest: plastic backrest covered with 3D spacer fabric; double seam around the edge. Armrests made of polypropylene in basic dark or dim grey.
Seat: seat upholstery made of recyclable polyurethane foam ‚V-Foam'. Seat cover in woven fabric or 3D spacer fabric.
Base: tubular steel cantilever base, in chrome or powder-coated in basic dark or soft grey. Can be stacked (max. 4 chairs).
Note: as stacking can cause scratches, we recommend the chrome version for this purpose. In the stackable version, the seat cover is in basic dark (with armrests in basic dark) or soft grey (with armrests in dim grey).
Optional accessory: a multipurpose folding desk tablet in black plastic is available for the version in chrome.

ID Visitor Trim, stackable

ID Visitor Soft/Trim with writing tablet

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

ID Visitor Soft

Backrest: plastic backrest with soft padding made of recyclable polyurethane foam 'V-Foam'; fabric or leather cover. The version in leather has a double seam in the centre. Armrests made of polypropylene in basic dark or dim grey.
Seat: seat upholstery made of recyclable polyurethane foam 'V-Foam'. Seat and back covers in fabric or leather.
Base: tubular steel cantilever base, in chrome or powder-coated in basic dark or soft grey. Can be stacked (max. 4 chairs).
Note: as stacking can cause scratches, we recommend the chrome version for this purpose. In the stackable version, the seat cover is in basic dark (with armrests in basic dark) or soft grey (with armrests in dim grey).
Optional accessory: a multipurpose folding desk tablet in black plastic is available for the version in chrome.

ID Visitor Trim

Backrest: plastic backrest with polyurethane padding; fabric cover with double-stitched seam around the edge. Armrests made of polypropylene in basic dark or dim grey.
Seat: seat upholstery made of recyclable polyurethane foam ‚V-Foam'. Seat and back covers in fabric.
Base: tubular steel cantilever base, in chrome or powder-coated in basic dark or soft grey. Can be stacked (max. 4 chairs).
Note: as stacking can cause scratches, we recommend the chrome version for this purpose. In the stackable version, the seat cover is in basic dark (with armrests in basic dark) or soft grey (with armrests in dim grey).
Optional accessory: a multipurpose folding desk tablet in black plastic is available for the version in chrome.

Panton Junior

Verner Panton, 1959/1960

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Back, seat and base: dyed-through polypropylene. Matt finish.

Outdoor use: suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Safety information: chair suitable for children aged 3 to 10 and for max. 34 kg (74 lbs). For children under the age of 3, there is an increased risk of a fall or of the chair tipping over. Do not let your child climb on the chair. Always make sure the chair is used in a safe place. A chair standing by a window, for example, may result in a child falling from a dangerous height.

Wire Stool High

Charles & Ray Eames, 1951

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Upholstery: unupholstered, with seat cushion, with classic seat and back pad or with Bikini Outdoor.

Classic seat and back pad: in fabric or leather. For the back pad in leather, the rear is always covered in Plano fabric, except for the version in leather snow, which is used on both the front and back.

Seat shell: bent and welded steel wire, chrome-plated or powder-coated.

Base: tubular steel, chrome-plated or powder-coated, non-stackable. Height of seat front edge: 820 mm; ideal for use at counters and tables 110 to 115 cm in height (without seat cushion). The powder-coated version may show signs of abrasion on the footrest due to the anti-slip coating.

Bikini Outdoor: quick-drying, antibacterial padding for outdoor use made of polyurethane foam, resistant to light, water and mould (Oeko-Tex), easy to attach and remove from chair. Cover made of quick-drying outdoor fabric, washable at 30 °C on a delicate cycle.

Outdoor use: version with powder-coated base and without classic upholstery suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Square table, 750 x 750 mm

Rectangular table, 1600 x 750 mm

Table top: oak veneer in light or dark oak, lacquer finish (20 mm); melamine faced in white with smooth straight plastic edge (19 mm); or solid core material with black edge (12 mm) in the colours white or black. Solid core table top in black with anti-fingerprint coating.

Base: powder-coated with finely textured finish in deep black (RAL 9005). The height of the base including screw-in glides is 720 mm; the glides can be adjusted (max. extension 10 mm) for levelling on uneven floors.

Outdoor use: version with a powder-coated base and solid core top suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Bistro Stand-up Table

Ronan & Erwan Bouroullec, 2010

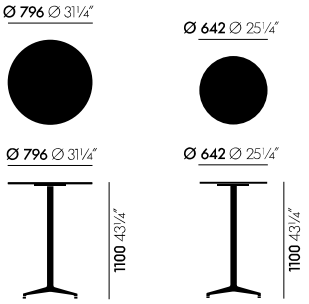

Table tops come in three materials: melamine faced, white surface, smooth straight plastic edge (19 mm); light or dark oak veneer, lacquer finish (Europe) (19 mm); solid core material in the colours white or black with black edge (12 mm). The solid core table top in black has an additional anti-fingerprint coating.

Base: pre-galvanised, powder-coated in basic dark (RAL 9004). The height of the base including screw-in glides is 1080 mm; the glides can be adjusted (max. extension 10 mm) for levelling on uneven floors.

Outdoor use: version with solid core table top suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Eames Contract Tables

Charles & Ray Eames, 1968

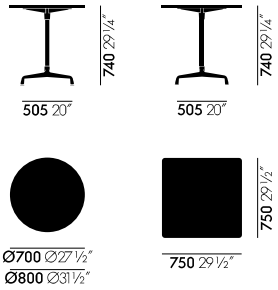

Table tops: available in four materials: melamine-faced white surface (25 mm) with smooth, flat plastic edge in white; wood veneer in light oak, lacquer finish or dark oak, lacquer finish (Europe) (25 mm) with flat veneer edge; solid core material in white (12 mm) with black edge; HPL (25 mm) with black edge.

Base: stable pedestal base, four-star legs in die-cast aluminium. Available in four versions: base polished or chrome-plated with column in basic dark (RAL 9004), all chrome or all powder-coated (textured finish) in deep black (RAL 9005) or white (RAL 9010). The height of the base including screw-in glides is 71 cm; the glides can be adjusted (max. extension 10 mm) for levelling on uneven floors.

Outdoor use: version with a powder-coated base and solid core top suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Super Fold Table

Jasper Morrison, 2015

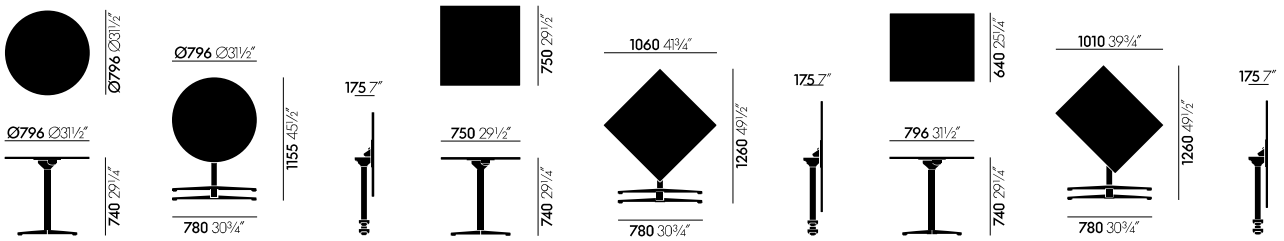

Table top: melamine faced in white with smooth straight plastic edge (19 mm), oak veneer (Europe) in light or dark oak (19 mm) or solid core material with black edge (12 mm) in the colours white or black. Solid core table top in black with anti-fingerprint coating.

Folding mechanism: die-cast zinc.

Column: powder-coated steel in basic dark.

Base: die-cast aluminium.

Outdoor applications: version with solid core table top suitable for use in outdoor conditions on a temporary basis. Avoid prolonged exposure to rain, snow or direct sunlight. Product may be kept in covered outdoor spaces protected from the elements.

Eames Fiberglass Chairs

Charles & Ray Eames, 1950

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, glass-fibre reinforced polyester (fibreglass), whose characteristic irregular surface may exhibit a varying pattern of fibres or deviations in colour as well as small specks of pigmentation. Just like the earliest models, today's fibreglass shells are also slightly transparent in some colours. Optionally available with a moulded foam seat cushion (screwed to the seat shell); cushion can be replaced by the Vitra service team.

RAR base: wire base with cross struts, solid maple runners. (RAR = Rocking Armchair Rod Base)
Origin of wood: maple (Acer platanoides) from Western Europe and/or Poland.

Eames Plastic Chairs RE

Charles & Ray Eames, 1950

vitra.

RAR

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery, both made of recyclable polyurethane foam ‚V-Foam'. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.
Note: due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.
Options: the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

Base: wire base with cross struts, chrome-plated or powder-coated finish, on solid maple runners. (RAR = Rocking Armchair Rod Base)
Origin of wood: maple (Acer platanoides) from Western Europe and/or Poland.

Grand Relax

Antonio Citterio, 2019

Seat/body: moulded polyurethane foam with plastic frame and integrated synchronised mechanism with locking device.
Seat heights: 415 mm (310 mm with applied load, measured in accordance with EN 1335-1:2000) or 465 mm (360 mm with applied load, measured in accordance with EN 1335-1:2000).
Base: four-star swivel base in die-cast aluminium, polished or powder-coated finish.
Seat cushion: chamber cushion filled with polyurethane foam lozenges and ball fibres.
Back cushion and neck cushion: chamber cushion filled with polyurethane foam cubes and a mix of goose feathers and down.
Note: Cushions should be regularly shaken and plumped to retain their original fullness and shape.
Note: The back shell, the understructure of the seat and ottoman, and the adjustment knob for backrest resistance are covered in Leather Forte (decorative split leather).
Note: The base version determines the finish of the other metal parts (mechanism control lever, cap on resistance adjustment knob).
Note: total height with headrest in highest position 1080 or 1130 mm.
Ottoman: MDF panel covered with polyurethane foam and polyester fleece; chamber cushion filled with polyurethane foam lozenges and ball fibres.
Base: non-swivel four-star base in die-cast aluminium, polished or powder-coated finish.
Glides: fitted with plastic glides for soft floors or felt glides for hard floors.

Slow Chair (fabric)

Ronan & Erwan Bouroullec, 2006/2025

Frame/cover: tubular steel frame with fabric cover stretched over the frame.
Cushions: one seat cushion and one neck pillow. The back cushions are from the Vitra Cushions collection: 40 x 30 cm and 65 x 30 cm.
Cushion filling: seat cushion contains 100% recycled PET fibres from post-consumer waste. Neck pillow and back cushions 40 x 30 cm and 65 x 30 cm (cushions with soft comfort) contain 100% recycled polyester from post-consumer waste.
Covers: removable.
Seat height: 400 mm (applied load 278 mm, measured in accordance with EN 1335-1).
Base: polished or powder-coated die-cast aluminium.
Glides: polyethylene.
Note: cushions should be regularly shaken and plumped to retain their fullness and shape.

Alcove Plus Paravent

Ronan & Erwan Bouroullec, 2021

Alcove Plus Paravent

Alcove Plus Paravent one-piece

Alcove Plus Paravent two-piece

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Paravent: panel with organic fibreboard core. Quilted cover with polyester-fibre padding and a zip fastener on both sides for attachment to other Alcove Plus elements: Sofa, Love Seat, Work or Desk.
Cover: removable.
Legs: steel, chrome-plated or powder-coated (smooth). Felt glides.
Note: Alcove Plus Paravents are not designed for free-standing use. They must always be connected to another Alcove Plus element: Sofa, Work or Desk.

Anagram Sofa

Panter&Tourron, 2024

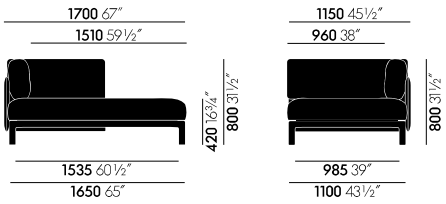

Anagram platform 900 x 1800 with panels and back cushions

Anagram platform 900 x 2200 with panels and back cushions

Anagram platform 1100 x 1650 with panels and back cushions

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Anagram Sofa

Panter&Tourron, 2024

Legs: recycled aluminium, powder-coated.
Body: webbed aluminium frame.
Backrest cushions: filling 100% recycled PET fibres with components from post-industrial and post-consumer waste.
Soft and medium seat cushions: polyurethane foam core in separate pockets with chamber cushion overlay (soft version filled with 100% recycled PET ball fibre from post-consumer waste and medium version with 100% recycled PET fibres from post-consumer waste). Available with soft upholstery or in a medium comfort version with slightly firmer padding.
Seat height: 415 mm (applied load 325 mm for soft comfort version, measured in accordance with EN 1335-1:2000).
Platform connectors: recycled polyamide. At least two platform connectors are required to attach two platforms together.
Panels: integrated biofibre board, polyester fibre and cover.
Mounting bracket with tension strap for panels and attachable tables: bracket made of recycled polyamide, tension strap in polyester.
Attachable tables in solid wood: oak, natural, oiled finish, ash, black, lacquer finish or ash, cotton white, oiled finish.
Origin of wood: oak (Quercus robur) and ash (Fraxinus excelsior) from Western Europe and/or Poland.
Glides: non-slip.
Covers: removable. To avoid shrinkage or damage, covers should be professionally cleaned – do not put in the washing machine. A torque spanner is required to change panel covers or to install a new mounting bracket.
Note: cushions should be regularly shaken and plumped to retain their fullness and shape. Ripples and indentations from sitting (pressure marks) and partially visible outlines of the chamber cushions are characteristic of high-quality, soft upholstery in combination with a removable cover and can be more or less pronounced, depending on the selected cover material.

Individual cushions in many different sizes, cover materials and colours can be found in the Vitra Cushions collection at the end of the sofa chapter.

Slow Sofa

Ronan & Erwan Bouroullec, 2025

Frame/cover: tubular steel frame with fabric cover stretched over the frame. The back cushions are from the Vitra Cushions collection.
Cushions: 3 Vitra Cushions (40 x 30 cm, 65 x 30 cm, 60 x 40 cm) and 2 neck pillows.
Cushion filling: seat and back cushions 60 x 40 cm (cushions with supportive comfort) contain 100% recycled PET fibres from post-consumer waste. Neck pillows and back cushions 40 x 30 cm and 65 x 30 cm (cushions with soft comfort) contain 100% recycled polyester from post-consumer waste.
Covers: removable.
Seat height: 400 mm (applied load 278 mm, measured in accordance with EN 1335-1).
Base: polished or powder-coated die-cast aluminium.
Glides: polyethylene.
Note: cushions should be regularly shaken and plumped to retain their fullness and shape.
