Mounting: Suspension type: Cable 2x0,75mm². Canopy: Yes. Cable length: 3m.

Weight: Max. 2Kg.

LC Shutters Pendant

Pendants

Designer: Louise Campbell

Concept: The fixture emits a primarily downward illumination. The perforated pattern on the shade provides a soft illumination around the fixture. Meanwhile, the perforation helps to lighten up the surface of the shade in a decorative way, when it is turned on, thereby maintaining the contour of the fixture, whether it is on or off. The light source is surrounded by an opal diffuser, which ensures that the fixture is 100% glare-free, and that the fixture is suitable for several types of light sources providing the same light distribution and comfort. And finally, the shape of the diffuser allows a beautiful view into the fixture.

Finish: White, powder coated.

Material: Shade: Spun aluminium. Punched and embossed. Suspension: Powder coated die casted aluminium. Diffuser ball: Mouth-blown white opal glass.

Mounting: Suspension type: Cable 2x1mm². Canopy: Yes. Cable length: 3m.

Weight: Max. 3,2kg.

Class: Ingress protection IP20. Electric shock protection II wo. ground.

Designer: Mikkel Beedholm/KHR Architecture

Concept: The fixture emits diffused light via a high-efficiency acrylic diffuser. The diffuser, which is encircled by a voluminous coloured or white ring, is hidden when viewed from low angles. Angling the inner side of the ring 5° creates a comfortable and decorative graduation of the light from the diffuser. Perforated body discreetly illuminates the other components of the fixture.

Finish: White, Black, Pale Petroleum or Yellow. Powder coated.

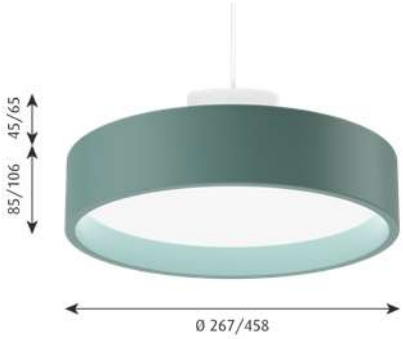

Material: Reflector: Deep drawn aluminium. Diffuser: Acrylic, frosted.

Mounting: Hung: Cord 5x1.5mm2, 3m.

Weight: Max 2,3kg. (Ø260). Max 5kg. (Ø450).

Class: Ingress protection IP20. Electric shock protection I.

Info notes: For LED replacement kit, LP Circle Ø 450 HO: High output for projects with high ceilings or where high illumination is required or LP Circle Ø 450 with microprismatic diffuser for UGR <19 (CIE 117) please contact Louis Poulsen.

Concept: The circular luminaire emits a combination of softly diffused, glare-free, downwardly directed light and reflected indirect light from its curved upper rings. A large angled reflector encircles the diffuser and reduces the contrast around the edge. The top reflector is perfectly curved to distribute uplight at a broad angle. A colored outer shade surrounds the reflector and creates an interreflection of light, resulting in a graceful glow on the outside of the top and bottom reflectors. In total, it creates four rings of light surrounding the central diffuser.

Finish: Matte Black, Matte Champagne, or Glossy White, wet painted. Matte white satin finish reflector. Glossy diffuser.

PH 3/3 Pendant

Pendants

Designer: Poul Henningsen

Concept: The fixture emits a diffused and comfortable glare-free light, characteristic of the reflective three-shade-system by Poul Henningsen. The fixture is available with white opal glass or soft touch black painted metal with a white inner side. The translucent shades in three-layered mouth blown opal glass create a warm glow around the pendant, where the metal shades with the white painted inner sides reflect a fine and primarily downward directed light. The combination of a metal top shade and opal glass middle and lower shades provides both. The included diffuser in frosted glass is easy to insert for an even softer light distribution.

Finish: White opal glass or soft touch black painted aluminium with white inner side shades.
Matt black, powder coated.

Material: Shades: Mouth-blown white opal glass or spun aluminium. Bottom diffuser: Frosted glass. Suspension: Aluminium. Canopy: Aluminium.

Mounting: Suspension type: Black textile cable 2x0,75mm². Cable length: 4m. Canopy: Yes. Specially designed matt black painted canopy. Height adjustment of light source approx. 25mm depending on light source used.

Weight: Max. 2,3 kg.

Class: Ingress protection IP20. Electric shock protection II w/o ground.

PH 5/5 Pendant

Pendants

Designer: Poul Henningsen

Concept: The fixture emits a diffused and comfortable glare-free light, characteristic of the reflective three-shade-system by Poul Henningsen. The fixture is available with white opal glass or soft touch black painted metal with a white inner side. Where the metal shades with the white painted inner sides reflect a fine and primarily downward directed light, the metal top shade combined with translucent opal glass middle and lower shades in three-layered mouth blow opal glass create a warm glow around the pendant too. The included diffuser in frosted glass is easy to insert for an even softer light distribution.

Finish: White opal glass or soft touch black painted aluminium with white inner side shades.
Matt black, powder coated.

Material: Mouth-blown white opal glass or spun aluminium. Bottom diffuser: Frosted glass. Suspension: Aluminium. Canopy: Aluminium. LED version: Additional opal PC diffuser in front of LED.

Mounting: 4 m. 2 x 1.5 mm² black textile cord. Specially designed matt black painted canopy for E27 included. Height adjustment of light source approx. 65mm depending on light source used. LED variants cannot be height adjusted.

Weight: Max. 4,5 kg.

Class: Ingress protection IP20. Electric shock protection II w/o ground.

Info notes: Frosted glass bottom diffuser to ensure a diffuse light distribution.

The LED diffuser has integrated reflective shield in white ABS to achieve a more even light distribution on the shades (can be removed if more light downwards is needed).

Concept: The fixture provides 100% glare-free light. The 72 precisely positioned leaves form 12 unique rows of six leaves each. They illuminate the fixture, as well as emit diffused light with a unique pattern. Reflection from the light source is diffused in the sandblasted lower surfaces, and this light is reflected decoratively in the top surfaces, giving the fixture a unique glow. The surface treatment on the glass leaves eliminates direct glare. For the energy saving LED variant the quality of light and atmosphere surrounding the product is kept at the highest level.

Finish: Clear glass, sandblasted.

Material: Leaves: Clear glass, sandblasted. Top shade: High lustre chrome plated or white, spun brass. Frame: High lustre chrome plated, laser cut brass. Suspension: High lustre chrome plated, spun aluminium.

Mounting: E27: Cable 3x0,75 mm² & wire. Canopy: Yes. Cable length: 4 m. LED: Cable 2x1 mm² and wire. Canopy or external driver box contains driver. Cable length: 4 m. Maximum distance between external driver box and fixture: 20 m.

Weight: Max. 27.5kg.

Class: Ingress protection IP20. Electric shock protection I w. ground.

Info notes: For LED replacement kits please do contact Louis Poulsen.

Concept: The fixture provides 100% glare-free light. The geometrical, spherical design is based on the principle of illuminating all surfaces at the same angle. This ensures uniform light around the fixture, illuminating both walls and ceiling. Matt painted undersurfaces and glossy top surfaces result in an attractive reflection of the diffused light, creating uniform light distribution around the fixture.

Finish: White, wet painted.

Material: Shades: Spun aluminium. Frame: High lustre chrome plated, extruded brass. Housing: High lustre chrome plated, spun aluminium.

Mounting: Suspension type: Cable 2 x 1 mm2 and wire. Canopy or external driver box contains driver. Cable length: 4m. Maximum distance between external driver box and fixture: 20m.

Weight: Max. 7kg.

Class: Ingress protection IP20. Electric shock protection I w. ground.

Info notes: This product is fitted with an integrated energy-saving LED light source. Should you wish to replace it, please contact Louis Poulsen so we can help you purchase the correct LED Replacement Kit. Please note that LED-replacement should always be carried out by an authorised electrician.

Concept: The fixture emits diffused light. The curved opal diffuser provides soft, pleasant,
primarily downward directed room lighting. The metallised semitransparent rear side of the diffuser produces a halo effect and reflects light from the surroundings. The rounded white top completes the curve from the diffuser. The luminaire is suspended simple and elegant from its cord.
