Färgmarkeringar och/eller symboler för hållbara alternativ i prislistan:

Mörkgrön markering eller symbol

Miljömärkt produkt – Möbler där hela den sammansatta varan har en typ 1 miljömärkning enligt ISO 14024 med Svanen, Möbelfakta, EU Ecolabel eller annan likvärdig märkning.

Ljusgrön markering eller symbol

Hållbarhetsmärkt produkt eller beståndsdel – Möbler där hela eller delar av den sammansatta varan är hållbarhetsmärkt, exempelvis med FSC, EU Ecolabel eller OEKO- TEX®. Leverantören ska kunna ge mer detaljerad information om vilka delar eller variationer som är hållbarhetsmäkta vid begäran.

Orange markering eller symbol

Klimatberäknad produkt – Produkt med dokumenterad miljövarudeklaration (EPD) enligt ISO 14025.

Lila markering eller symbol

Produkt med återvunnet eller förnybart material (enligt definitionerna i ISO 14021). Leverantören ska kunna ge information om andel (%) återvunnet och/eller förnybart (biobaserat) vid begäran. Märkning av återvinningsbart material utgår.

Blå markering eller symbol

Demonterbar produkt – Produkt som är demonterbar till olika komponenter och beståndsdelar som i första hand möjliggör återbruk och i andra hand materialåtervinning när produkten nått sin fulla livslängd. Produkten ska vara designad för renovering, det vill säga att det ska vara enkelt att reparera och byta ut moduler, komponenter och beståndsdelar som slits över tid. Exempelvis ska ytskikt, som bordsskivor, textil och stoppning kunna tas isär, avlägsnas och ersättas med hjälp av vanligt förekommande manuella verktyg, ej specialverktyg. Enklare reparationer och utbytesarbeten ska kunna utföras av en lekman. Om det krävs fackmanakunskap för mer avancerade arbeten ska det framgå av anvisningarna som leverantören ska kunna ge vid begäran. Anvisningarna ska innehålla en sprängskiss, steg för steg beskrivning inklusive vilka verktyg som krävs samt hur möbelns ingående delar bör källsorteras.

MAINTENANCE GUIDE

Care of fabric upholstery

Regular vacuum cleaning is recommended. Vacuum clean the chair with a furniture brush or wipe it with a clean white cloth or sponge slightly dampened with lukewarm, clean water. Marks and stains should be removed with a proprietary cleaner.

Care of leather upholstery

Wipe with a slightly damp cloth and gently rub dry. A good proprietary hide food should be applied at least once a year and more often if the leather is in a dry atmosphere or close to a heat-source.
Do not remove any plastic parts or attempt to open the seating mechanism.
For additional maintenance advice please contact our customer service team or our web site flokk.com.

Care of gas stem

Gas stems should be periodically wiped clean with a cloth and general purpose solvent, then a fingertip of light grease applied.

PACKAGING MATERIAL - RECYCLING

We encourage you to ensure recycling of all packaging material. Please sort and return the packaging material, using your local recycling partners/stations - and follow your local regulations.
If you have questions on how to handle waste packaging material, please inform your contact person within Flokk.

END OF LIFE - RECYCLING

We perform mono-material separation of all chairs that are no longer usable and pass the individual materials along for processing and recycling. We encourage you to ensure proper recycling of your chair and its various components.
If you have questions on how to dispose or return your chair after use, please contact our Customer Service.

Packaging measurements

Changes from 18th of September 2023:

Giroflex will implement 100% recyclable boxes. It will be the possibility to order swivel chairs in fully, or semi knocked down versions – depending on model .

This will become the standard option and has many benefits e.g. logistic flow emits less CO2, boxes take less storage and are easier to carry on.

Underneath you will see an overview of possible choices per model.

Flokk is a family of design-led brands shaping workspaces where people and organisations thrive.
From our roots in Scandinavian task seating design, we've grown into a global leader in workspace solutions – creating furniture that supports people wherever and however they work.
The name Flokk comes from the Norwegian word for "group" or "herd". It reflects our belief that workspaces should bring people together – to focus, collaborate and connect.
We believe great design can do more than look good. It can enhance well-being, enable productivity, and help reduce environmental impact. We work closely with architects, designers, and businesses to shape workspaces where people feel supported, valued, and able to do their best.
Our collection of brands brings this purpose to life – delivering thoughtful, durable solutions for every kind of workspace and every kind of person.
Our growing family includes renowned names such as HÅG, Offecct, Giroflex, RH, Profim, Stylex, 9to5 Seating, Via Seating, Connection, and Malmstolen – each with its own identity, yet united by a shared commitment to design quality.

Headquartered in Oslo, Norway, we have production sites across Europe, North America, and Asia, including Røros (Norway), Nässjö (Sweden), Turek (Poland), Mirfield (UK), Zhongshan (China), Hawthorne (USA), Delanco (USA) and Reno (USA). Our global reach is supported by sales offices in over 15 countries, serving customers in more than 80 markets.

With around 2,000 dedicated employees, we work together to bring better spaces to life and to fulfil our vision; to **inspire great work**
